RING! RING!

Oh! Ring That Bell!

Bright and early Monday morning we commence another series of sales. A large lot of new goods have been received, and still larger lots are on the way. Messrs. John V. Farwell & Co., of Chicago, telegraphed us a few days ago about a large lot of special bargains, and named a price that will prove a very great loss to the manufacturers.

WE TELEGRAPHED FOR IMMEDIATE SHIPMENT.

And these goods will all be here this week. Every day this week special announcement and full description will be made in the daily papers, and the crowds will be here. We wish to impress on your minds that

No Trash is Offered in These Sales.

All first-class and desirable merchandise and the very cream of the business. This week the bargains will be all new, all first-class, and extra desirable, and every announcement will prove of great benefit to intending purchasers.

Monday morning we commence to

ROLL THE BALL AND RING THE BELL!

Roll and ring! ring and roll all through the week. We know when we have a good thing, and we know this week we will be able to offer one of the choicest and most desirable lot of goods ever

Placed on Sale By Any House on this Coast.

Read the daily papers. Be on them early in the morning. We make special inducements to early risers. When you get up in the morning, think of it. Ring and roll! When you take your morning meal, think of it. Ring and roll! When you retire, think of it. Ring and roll! Think of it all through the week.

Ring in the Bargains! Ring out the Goods.

We tell you honestly, never have we been able to offer the inducements we now have at our command, and they will be placed at your disposal as fast as received.

FOURTH OF JULY, 1985.

GREAT DISPLAY OF FIREWORKS

By special arrangement we have received the following programme of events on the Fourth of July, ONE HUNDRED YEARS from to-day:

GRAND ROCKET RACE.

There will be a race by the boys of Los Angeles on the Patent Utopian Sky-Rocket. This firework has an exterior seat on which the rider mounts; and, at the signal from the starter, touches off the fuse. Each boy steers by means of the novel Air Rudder. The contestants must take provisions, as they will eat dinner on the new comet called "Comet if you can." The prize offered for the quickest time is the improved combination known as the "EUREKALETMEHAVEITATANYCOST." This five-inch package contains a suit of clothing, hat, folding cane, trunk, etc., all worked by carbon.

TRANS ATLANTIC EXCURSION.

Round trip from San Francisco, Los Angeles and San Diego to England, France and Italy, the entire cost will be only SEVENTY-FIVE CENTS, owing to the great competition with the Inter-Oceanic Balloon route, the Rocket Rapid Transit Road and the Subterranean Tunnel line, the fare is reduced.

LINE OF TRAVEL.

The Electric Car will leave the Union Depot, Los Angeles, at 16 a. m., reaching Boston at 10:15; thence the train will cross the Atlantic Suspension Bridge, arriving in Liverpool in time for dinner. The cars stop in Italy, returning to Los Angeles, when the Truth over the Boston Herald will cross the Atlantic Suspension Bridge, arriving in Liverpool in time for dinner. The cars stop in Italy, returning be same night. The moonlight home trip over the ocean will be superb.

P. T. BARNUM, Junior, will be in a barge midway across the Atlantic and will exhibit his celebrated lame whales, sailing from his band off the beak. On the cars, boats and at each station will be seen large assortments of clothing, etc., direct from the Boston SQUARE DEALERS' cosmopolitan warehouses. After much solicitation PITCHER & GRAY have consented to establish a Branch Store on the Moon, near Star avenue.

P. S.—Remember, remember that the train goes no further than San Diego and Los Angeles on return, as it will hardly pay to continue to small places like San Francisco, etc.

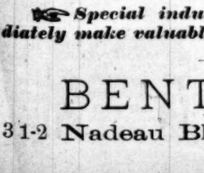
AMERICAN FRUIT EVAPORATOR!



The most practical and reliable Fruit Evaporator made. It gives unobstructed hot air currents ABOVE and BELOW all fruit, thus insuring evenness of drying and no spoiled fruit. Beware of infringements. THE AMERICAN is the only fruit evaporator with double action machine. Its sizes grade from domestic to manufacturing wants. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though we approve a slight use of sulphur, the AMERICAN is specially adapted for highest grade in unbleached work. It places fresh cut fruit first in highest and dryest heat; cures cut surfaces at once and keeps them dry, thereby setting and making permanent the color, and also thereby, as in broiling steaks, securing the highest quality in product. We place our experience in evaporating at the disposal of our customers. In some cases this gratuitous service is of more value than prices paid us for evaporators. Sold by

CATARRH!

Throat Diseases, Bronchitis, Asthma and Consumption, together with Diseases of the Eye, Ear and Skin, successfully treated by

M. HILTON WILLIAMS, M. D.

M. C. P. S. O.

Graduate of Victoria College, Toronto, Ontario; member of the College of Physicians and Surgeons of Ontario; for three years Associate Physician of the Chicago and Cincinnati Throat and Lung Institutes; for fifteen years, and still, proprietor of the Detroit Throat and Lung Institute; also Licentiate Physician in and for the State of Michigan, and for several years Proprietor of the Ontario Pulmonary Institute and Health Resort at Toronto, Ontario. Over 60,000 cases treated by us during the past nineteen years.

OZŒNA.

Ozœna is his professional or technical name given to an advanced form of catarrh in which ulceration has eaten through the membrane lining the nose to the cartilage or the bone. Any case of catarrh may end in ozœna, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish-yellow color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of Dr. Wood, of Philadelphia, "the disease is one of the most loathsome and disgusting with which the physician has to encounter. In bad cases the breath of the patient becomes so revolting as to drive him from society, and render him an object of distrust even to himself."

In some instances the destruction of bone becomes so paralyzed and slough off, leaving deep, unhealthy sores, and the throat has a blood mattery and are extremely difficult to heal.

After ozœna has continued some time the sense of smell becomes impaired and often lost.

Deafness is one of its most common consequences and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain.

The greatest danger, however, because the most common, is that it will extend downward into the lungs. In most cases of pulmonary disease catarrh is present in some degree, and in many instances it causes a large part of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh or ozœna, there are others which, if less dangerous, are sufficiently unpleasant. It creates great unhappiness in thousands of both sexes, by isolating them and preventing their associating with their fellow-beings, as in broiling steaks, securing the permanent, the color, and also thereby, as from the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cured by our new system of practice.

CONSULTATION FREE.—Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions. Address

The Times.

Office—Temple, Main and New High.

THE Pacific Mail steamer City of Tokio, having on board a valuable freightage of grain, bullion and coin, is reported aground on the coast of Japan.

A REPORT comes from Washington that Secretary Bayard is about to retire from the Cabinet. Lack of harmony with the President and other members of the Democratic happy family is assigned as the cause.

IT seems that Arthur D. January, the scion of the late State Treasurer, is not to go scot free after all. The cases recently dismissed were duplicated charges for the same offense. On conviction of the crime of embezzlement, he was yesterday sentenced to ten years in San Quentin. Justice in this case has only been taking a little nap.

EFFORT is being made by the administration at Washington to show to the American laborer that his condition is not nearly as grievous as that of his European fellow. It ought not to be, true or not true. It will never be with the capital of the country invested in legitimate and not speculative enterprise.

THE law cheapening postage by increasing the weight of letters to one ounce for single rate, to go into effect July 1, is already giving token of its influence in the orders that manufacturers are getting. Light-weight writing papers have had the preference over the heavy ones to avoid double postage, but now the tendency is setting toward the heavy papers, which, of course, are greatly to be preferred.

THE Washington Post (Democratic), in defending the President's appointments, maintains that where mistakes have been made, they are due to the importunities of "men who have deliberately misled Mr. Cleveland as to the fitness of the candidate in question." This perpendicular observation seems to apply with peculiar fitness to one Charles Whitehead, Mr. Henley's appointee to the office of Special Examiner of Pensions for California, whom the Los Angeles Democrats have seated themselves upon with commendable violence and their full "heft."

GENERAL A. J. WARNER, of Ohio, who is the author of the latest "plan" for quelling the silver agitation, is thus described in the New York Tribune: "He is a tall, big-framed Western type of manhood, with a high, thoughtful forehead, and a frank, open face fringed with a stubbly beard. His library on finance is one of the finest in America. The General is considered 'cranky' on silver, which is his hobby, but he is always entertaining and instructive even when one disagrees with him. He says that the primary steps have been taken for an agreement of diverse interests in Congress on a measure to suspend silver coinage and issue certificates on bullion of standard fineness at its market price on the day of deposit."

HENRY WARD BEECHER'S present creed is considerably mixed, according to the Truth Seeker, which says: "In the sermons that Mr. Beecher is now delivering he takes particular pains to declare that he is 'neither an infidel, agnostic, nor atheist,' but he enunciates sentiments that prove him to be all these. He rejects the Bible, which constitutes him an infidel; he spurns the orthodox Christian conception of God, for doing which he is an atheist; he has created his own God, which is very much like Herbert Spencer's Unknowable, and he is, therefore, an agnostic." The fact is, Beecher is before all else a seeker after notoriety. Notoriety is both meat and drink, the very breath of life to him. When he ceases to be able to pose before his congregation and the country as a curiosity, his heart will be broken and his career will speedily end.

ENGLAND.

The First Ministerial Council Called —Other News.

LONDON, June 25.—The first council of the new ministry will be held to-morrow.

AN OUTRAGE BY GERMAN SAILORS.

The Governor of Gaboon reports that a number of German sailors from the frigate Bismarck recently seized the wife of a native and murdered her husband, who was attempting to defend her. The Governor boarded the Bismarck and demanded the surrender of the assailants, but Admiral Knorr refused to give them up.

WILL SHORTLY DISSOLVE.

The Daily News says it is able to state that Parliament will dissolve as soon as the Seats Bill goes into operation, and that the election will be held in the middle of November.

A JEWISH PEER.

The Jewish Chronicle says that the elevation of Nathaniel de Rothschild to the Peerage sheds lustre upon the entire Jewish community. The creation first of a Jewish peer is one of the most significant acts of Gladstone.

PEERAGE CONFERRED.

LONDON, June 25.—The Queen has conferred the peerage upon Mr. Rowland Winn, Parliamentary Secretary to the Treasury in the new ministry. His title is Baron Stonwald of Nostell.

The Yellow Fever Scourge.

MADRID, June 25.—The official reports of new cases of cholera and deaths from the same in Spain, Wednesday, are as follows: In Madrid there was a total of 9 new cases, 8 deaths; city of Valencia, 62 new cases, 25 deaths. During the same time there were in the rest of the province of Valencia 549 new cases, 314 deaths; city of Murcia, 106 new cases, 94 deaths; while in the remaining parts of the province of Murcia there were 208 new cases, 87 deaths. In the province of Castellon del Plana there were 59 new cases, 30 deaths; Olen Pazulos, 6 new cases, 4 deaths; city of Toledo, 5 new cases, 2 deaths, and in the remainder of the province of Toledo, 15 new cases, 8 deaths; in Military Academy at Toledo, 12 cases, 1 death.

MADRID, June 25.—The report of cholera for the past twenty-four hours in Alicante shows 48 new cases and 40 deaths.

Hanlan Banqueted.

TORONTO, June 25.—A reception and banquet was tendered to Edward Hanlan last night. In replying to a toast, Hanlan said he had always rowed honest races, and had accepted his defeat by Beach as a true Canadian sportsman should. He intended again to visit New South Wales, where he was always royally treated, and although he knew that Beach was probably the finest specimen of oarsman he had ever seen, he also knew that his Australian friends would back him again to row Beach for any amount of money.

A Defunctious Condition.

TOPEKA, June 25.—Governor Martin has addressed a letter to the Secretary of War at Washington, calling attention to the defunctious condition of settlers along the Southern Kansas border in the event of an outbreak among the Cheyenne Indians, and requesting that ample precaution be taken for their protection, to preclude a repetition of the disastrous raid of 1878.

A HEAVY LOAD OF GRAIN AND TREASURE

The Ship Lightened by Jetsam—The Number of Passengers Aboard—Meagre Report of the Casualty.

Associated Press Dispatches to The Times.

YOKOHAMA, June 25.—The American steamer City of Tokio, Captain Masury, from San Francisco June 26, is ashore near this port. She is leaking, and her cargo has been partly jettisoned. Assistance has been sent to her.

ANOTHER DISPATCH.

SAN FRANCISCO, June 25.—The Pacific Mail Company's steamer City of Tokio is to-day reported ashore near Yokohama, Japan. She took a cargo from here consisting of flour and general merchandise, valued at about $70,000, and treasure to the amount of $440,000, as follows: Silver bars, Hongkong and Shanghai Bank, $120,000; Mexican dollars, Honkong and Shanghai Bank, $91,666; Anglo-California Bank, 72,000; Comptoir Descompte de Paris, 50,000; Chinese firms shipped $97,-627 Mexican dollars, and $9742 gold coin and dust.

SAN FRANCISCO, June 25.—The Tokio had fourteen cabin passengers, 346 in the steerage and 126 crew. Among the cabin passengers were ex-Governor Hubbard, of Texas, recently appointed United States Minister to Japan, and his family—five persons in all. Men acquainted with the coast of Japan say that a fog or typhoon may have been the cause of the occurrence. No news has been received by the steamer's agents in this city.

G. A. R.

The Eight Dollar Pension Scheme Defeated.

PORTLAND, Me., June 25.—It was voted that the next annual encampment of the G. A. R. be held sometime between October and May, and a recommendation that Memorial Day be observed on the Sabbath was adopted. The committee to which was referred Comrade Loring's resolution in favor of $8 a month pension reported adversely, and there was a minority report in its favor by Comrade Graves, of Michigan. The adverse report was adopted after protracted debate.

The Commander-in-Chief was authorized to appoint a committee to present resolutions to the heads of the Department at Washington, in behalf of pension claimants. A recommendation that all petitions to Congress from posts or pension claimants be sent through the National Headquarters of the Grand Army of the Republic, was adopted.

A series of resolutions of thanks to Congress for having placed General Grant on the re retired list of the army were adopted.

The roll of States was called for nominations for Commander-in-Chief, when the following candidates were presented: John W. Burst, of Illinois; General John A. Reynolds, of New York; Hon. Samuel S. Burdette, of Washington; General Lucius Fairchild, of Wisconsin. Comrade Fairchild withdrew his name, and balloting proceeded. On the second ballot Burdett received 229, Reynolds 136, Burst 79, and then Burdett's election was made unanimous. For Senior Vice-Commander-in-Chief, ex-Governor Seldon, of Maine, was chosen by acclamation. For the position of Junior Vice-Commander-in-Chief, Comrade Lewis, of Atlanta, was chosen on the second ballot. The usual resolutions of thanks to various parties, organizations and corporations were adopted and the encampment adjourned.

NATIONAL WOMAN'S RELIEF CORPS.

The National Woman's Relief Corps this morning elected the following officers of the national organization for the coming year: Mrs. Sarah E. Fuller, of Massachusetts, President; Mrs. Lizzie D. A. Kinnie, of California, Senior Vice-President; Mrs. Kent, of New Hampshire, Junior Vice-President; Mrs. L. A. Turner, of Massachusetts, Treasurer, and Mrs. Annie Whittemyer, of Philadelphia, Chaplain.

NEW GOLD FIELD.

The Coeur d'Alene Excitement Over Again.

OMAHA, June 25.—The new discovery on Snake River, Oregon, is believed to be genuine. Bona fide teleagrams follow each other fast into the Union Pacific headquarters, surpassing the wonder and importance of the new find. Doubts are many and expressed now that it is a new other Coeur d'Alene boom. A railway official said to-day that such fictitious schemes are never started in mid-summer, when they can so soon be exploded. The new fields are in Marion county, Oregon, among Eagle Cap mountains, in the peninsula formed by the junction of Powder and Snake rivers. The nearest point on the railway is Burke or Baker City, thirty miles. The wagon road runs within sight miles of the scene. The new camp is known as Pine Valley. Two hundred and nine claims have been taken. Parties are pouring in at the rate of fifty a day. The mining consists of placer and quartz. The placer mining is panning from fifteen to twenty-five cents, while with sorted rock one man could pound out, with a mortar, in one day as high as two hundred dollars. Old prospectors pronounce it a great discovery.

THE ITALIA.

Particulars of the Wreck—Passengers Sacrificed.

LIMA (via Galveston), June 25.—The steamship Puno arrived yesterday with 53 survivors of the wreck of the Italia. There are 70 persons missing, and, as far as known, only 8 passengers were saved, while only one of the crew was lost. The greatest confusion ensued immediately after the vessel struck. The shock strained the vessel, so that the doors of the cabin could not be opened, thus imprisoning the passengers. The captain was not on deck at the time of the accident. The disaster was due to wrong orders given by the third officer, who has since committed suicide. Great credit is bestowed on the heroic efforts of the purser to save the passengers. The purser's boat was swamped when the steamer sank. The passengers who escaped to land underwent fearful sufferings before they reached an estate, where succor was promptly afforded.

Angel's Camp Devastated.

SAN ANDREAS, June 25.—Angel's Camp, one of the most prominent mining towns in this county, was visited by fire yesterday. The greater portion of the business part of town was burned. The fire originated in a room in Cosgrove's Hotel, in which an insane person was confined. The hotel was destroyed, besides the adjoining livery stable of John Perry, Tyron's Hotel, postoffice and other business houses, and all of Chinatown. The loss is estimated at $75,000, and, so far as known, is covered by but little insurance.

Father Upchurch's Reception.

SAN FRANCISCO, June 25.—The reception tendered at the Pavilion last night to Father Upchurch, the founder of the Ancient Order of United Workmen, was a tremendous ovation. Fully 13,000 persons were present. Some people estimate the number as high as 15,000. An address of welcome was delivered by Wm. H. Barnes. Father Upchurch's reply was short but happy. The oration was made by the Supreme Overseer, Wm. H. Jordan of Oakland.

The Bond Minister.

LIMA (via Galveston), June 25.—Ex-United States Phelps died from fever contracted while on a pleasure trip to Oroya. The Government is making arrangements for the funeral, and honors of the highest description will be paid to the deceased. The new United States Minister, Mr. Buck, has arrived here.

Jonnary Goes Up for Ten Years.

SACRAMENTO, June 25.—Arthur D. Jonnary, ex-Deputy State Treasurer, was today sentenced to San Quentin for ten years for the embezzlement of State funds. He will be imprisoned until a motion for appeal is decided.

Pioneer Dead.

NAPA, Cal., June 25.—J. B. Chiles, a pioneer, died at his residence in St. Helena this morning, at the age of 75 years. Colonel Chiles arrived in California in 1841 and settled in Napa valley three years later.

HENDRICKS BANQUETED.

The Bay State Club Does Him the Grand Honor.

BOSTON, June 25.—At the Parker House this afternoon Vice President Hendricks was tendered a reception and dinner by the Bay State Club. Plates were laid for 300. Numerous State and municipal officials were present. Colonel Taylor, President of the club, presented Hendricks, who was received with three cheers. After thanking the club for the honor conferred upon him and referring to his receptions at Yale and Harvard, touching upon the result in Indiana last fall and expressing the opinion that, since the troubles in Massachusetts had passed she would take a place beside Indiana as a Democratic State, he took up the subject of civil-service reform. He told how he received a letter from President Pierce appointing him Commissioner of the General Land Office; of his acceptance of the position of the important work in hand, including surveys beyond the Missouri river and in California. He said: "When I took charge of that office with 180 clerks I found the business four years behind. Patents that ought to have gone to people living on lands were four years behind the date. I said, this will not do. A man who has purchased land of the Government has a right at an early date to his patent, so that he may sell it—so that he may obtain his rights, whatever they may be, I said there must be reform. My ambition was connected with reform. So I did commence the work of reform seriously and very earnestly, and very soon I became acquainted with all the clerks in my office. Very soon I knew the clerks able to help me with the work, and very soon those that limped or were unwilling or indifferent did step. (Applause). The hickory broom of Jackson, that represented Democratic reform, was the sentiment and emblem of reform that I sought to bring about, and in the place of the men who had to step out, there came in young, earnest fellows, willing to work, so that by general order I required that the work none at each desk should be 25 per cent. more than it had been before. When I left that office nearly four years afterwards it was only four months behind in the delivery of patents to men that had bought land (Applause). From four years it came down to four months, and that was as close as it was practicable to bring the work. That I thought was reform. I want to tell you another thing, gentlemen. When you men, that give your votes at election and pay your taxes, want to understand the particular point at which civil service can be brought about, I will tell you it is not with the President in detail. It is not with the Secretaries in detail. It is with the bureau officers that deal directly with work and with the clerks who perform the work. (Applause.) I am not personally much acquainted with the bureau officers employed by the Secretaries at Washington. I know the Commissioner of the Land Office; I know the Commissioner of Indian Affairs; I know, by reputation, an excellent gentleman, in the office of Patents. I believe that they, by their own judgment and forces, will bring about civil service reform in their departments. (Applause.) I have given my own history in civil service reform. It may be of no account, but it is mine. (Applause.) I think we are going through all right. It was a good while that Democrats were kept out in a quarter of a century—during which time the sentiment of the country was enforced with what appeared cruel proscription, such as I never advocated towards an opposite party, for I know there are honest men among them. I would not if I could take the charge of the entire government away from the opposite side. They pay taxes, contribute to the support of the country, help fight the battles when horrid war comes upon us, and it is but fair that they should share in the honors. But it is not fair and never has been fair that they should teach them and say to young men of the Democracy, you are not to be trusted; you shall not share in them. (Applause.) He closed by saying that after the next national election, in which he proposed to have no personal interest (Cries of "Head of ticket next time,") he wanted to come back and meet the Bay State Club, bringing good news from Indiana to Massachusetts.

SPORTING.

The Sheepshead Bay Races—Victory for Another California Horse.

NEW YORK, June 25.—The attendance at the Sheepshead Bay races to-day was the smallest of the season. The great feature of the day was the Emporium, in which the California horse, Hidalgo, the stable companion of Tyrant, was entered against a fine field, including Katrina, of Rancocas stables. The race was a splendid victory for the visitor, and stamps him as a goer of no mean order. The excitement was intense, and at the finish the crowd cheered itself hoarse. The first race, handicap steeplechase, mile and an eighth, the starters were Duke of Westmoreland, Burch, Jack of Hearts, Charley Marr, Hava, and Wallflower. Burch won by two lengths, Jack of Hearts second, Wallflower third; time, 1:58. In the second race for two-year-olds, three-quarters of a mile, the starters were Amalgam, Wait-a-While, Vindex, Mink, Little Minnie, Longstop, Rock and Rye and Electric. Electric won by a length and a half, Mink second, Longstop third; time, 1:17¼. In the third race, a handicap sweepstakes, mile and three-eighths, the starters were Statesman, Turco, Graystone, Elgin, Clonmel, Lida Stanhope and Head-and-Toe. Turco won by three lengths, Clonmel second, Lida Stanhope third; time, 2:35½. The fourth race was for the Emporium sweepstakes for three-year-olds, $250 each, $75 for first and only, $25 for the first to scratch out by April 15, and $50 if by May 15. Five thousand dollars is to be added by the association. The second is to receive $1000 of the added money and 20 per cent. of the stakes, and the third $500 of the added money and ten per cent of the stakes; one mile and a half. Starters, Guano, 118 pounds; congriver, 104 pounds; Tillie Doe, 111 pounds; Tecumseh, 134 pounds; Joliet, 111 pounds; Spendthrift, 110 pounds; Katrina, 104 pounds, Hidalgo, 104 pounds. The betting was five to one on Longview, thirty to one on Grenadier, fifteen to one on Exile, twenty-five to one on Clapgate, thirty to one on St. Augustine, eight to one on Tillie Doe, thirty to one on Tecumseh, five to one on Joliet Colt, twenty-five to one on Spendthrift, twenty-five to one on Hidalgo, four to one against Katrina, eight to five on St. Augustine. The animals started off with Tecumseh and Longview together, Hidalgo was in company with Katrine in the last row until a mile had been gone at a stipping pace, when the California horse came out of the rack and rushing to the front on the homestretch, winning easily by three lengths, St. Augustine second and Longview third, a length between the second and third; Tecumseh finished fifth and Katrina eleventh. Spectator being the twelfth and last. Time, 2:39½. The fifth was a race of seven furlongs; starters, Ninablisfoot, Farragut, Black Jack, Emmett, Rico, Bellgate, John K., Valiant, Hohokemie, Joe Sawyer, Disturbance, Hickory Jim and Carley B. Disturbance won, Black Jack second, Rico third. Time, 1:30. The sixth race was a handicap, one mile and three-sixteenths, the starters were John T. and Trafalgar. Trafalgar won by two lengths. Time, 2:10.

A Catholic Manifesto.

VIENNA, June 25.—The Catholic Bishops of Austria have issued a manifesto to the faithful, warning them against increasing skepticism, secret societies and the influence of the anti-religious press, which are undermining the church. The Bishops followed the manifesto with a memorial asking the government to legislate with a view to protecting the church from adverse influences. The Bishop's action is almost without precedent, and has caused a sensation in religious circles.

Assistance to Canadian Settlers.

OTTAWA, June 25.—In the House of Commons this afternoon Sir John Macdonald said the government were considering the question of rendering assistance to its settlers in the Northwest whose houses have been destroyed or who had been unable to put in crops during the present year in consequence of the rebellion.

JOHNSON AND DENSON HAVE A BOUT

The Former Becomes Frantic for Gore—Court Adjourned in Disorder—Weapons Brought Out.

Associated Press Dispatches to The Times.

SACRAMENTO, Cal., June 25.—Judge McFarland's court was the scene of an exciting and extraordinary occurrence this evening. The jury in the case of R. A. Fisk, Jr., vs. The Central Pacific Railroad Company, wherein the plaintiff sued for $50,000 damages for injuries received whilst in the employ of the railroad in this city, had just announced that they were unable to agree. Judge S. C. Denson, who represents the railroad, asked the court to direct the plaintiff to pay the jury. Grove L. Johnson denied the right of the Court to make such an order, and a heated discussion arose between the counsel, ending in Johnson striking Denson a blow just below the right eye with his clenched fist. The lawyers then grappled each other, and amidst the wildest excitement wrestled about the court-room, aiming blows at each other, until separated by Deputy Sheriffs. The Judge then declared court adjourned, and Johnson, with his friends, went out in front of the Court-house. Denson remaining in the room. Johnson began talking about the case, and, becoming frenzied with excitement, threw off his coat and started for the court-room. He was seized and held, but struggled towards the door, screaming that he would kill Denson. Some one entered the room and told Denson to look out for himself, and the doors of the room were closed. Denson drew a six-shooter and swore he would defend himself. Finally Johnson broke away and ran towards his office, soon reappearing, armed and accompanied by his two sons. But the friends of Denson had procured a carriage and taken him home, so a meeting was avoided. The affair causes a great sensation.

WASHINGTON.

Secretary Bayard to Go Out—Other Capital Notes.

NEW YORK, June 25.—The Sun's Washington special says: Mr. Bayard will presently leave the Cabinet. Bayard's course in regard to appointments, and the general spirit in which he has conducted his department, has been a great disappointment to the President and to some other members of the Cabinet.

CABINET SESSION—OTHER MATTERS OF INTEREST.

WASHINGTON, June 25.—The Cabinet meeting to-day was quiet and unimportant. Secretary Endicott was the only absentee. Contrary to expectations, the case of Minister Kiely was not mentioned. It is understood that no action will be taken in the matter until the wishes of the Austrian government are officially communicated.

The Secretary of the Treasury has been informed that the recent investigation of the condition of the Sub-Treasury at New Orleans shows that the total defalcation of the runaway clerk, Antlemarie, amounts to a little over $35,000.

James L. Stanton, general agent of the Department of Justice, has tendered his resignation to take effect June 30th.

A report has been received at the Navy Department from Admiral Jouett, announcing the failure of efforts to settle the disputes in the United States of Colombia. He says that the political differences between the two parties are of such a nature that a peaceable settlement is quite impossible at this time. Hostilities are likely to continue indefinitely. The government troops, he reports, are marching on Barranquilla. The revolutionary leaders, the admiral says, are the leaders of the liberal party in Colombia. The troubles on the Isthmus, Admiral Jouett thinks, result from local parties and from the fact that many people of mixed characters congregate there. He anticipates hard fighting in Colombia. An official dispatch from Chiola states that General Canoral troops have completely disbanded.

FRIDAY, JUNE 26, 1885.

Mayor Spence and Coroner O'Donnell.

The San Francisco Evening Post of the 24th instant contains the following editorial, in which one or two errors will be noticed:

Los Angeles, in and around which many Eastern people of means have settled of late years, is anxious to attract more immigrants of the same kind. They spend their money for lands and in improving them. This is a good thing for the property-owners, the real estate agents, with which the city swarms, for the merchants, the newspapers and the workingmen. The natural attractions of Los Angeles for well-to-do Easterners are strong. The climate is semi-tropical, the surroundings lovely and suggestive of luxurious repose. Yes this prosperous city, which is anxious to make itself pleasing to people with means, of homes, has recently contested the indiscretion of electing an illbalanced man for her Mayor. Her chief municipal official presided on Sunday night last at a mass meeting which was called to be addressed by Coroner O'Donnell, a partially demented demagogue who goes about advising tramps to "apply the torch" to the property of employers of Chinese labor. The Mayor even went to the length of making some remarks himself, in which he complimented the inciter of crime. Los Angeles should endeavor to supply herself as soon as possible with a Mayor whose ideas are in conformity with her interests as a city offering special inducements to persons of substance to make it their place of residence.

The errors in the above are (1) the statement that Mayor Spence *presided* at the O'Donnell meeting; (2) that it was held on Sunday evening; (3) the inferential statement that the Mayor made remarks to the crowd. The facts are that the O'Donnell meeting was held on Saturday night, not on Sunday night; that the Mayor was present on the stand, but did not preside; that he made no remarks *to the crowd*, but on the conclusion of the incendiary agitator's harangue, took him by the hand, thanked him, and indorsed his speech. In other respects the Post's article is correct.

Fourfold Increase of Population.

The growth of Kansas City has been phenomenal, and shows what business energy and a favorable commercial location, added to ample railroad communications, will do. In 1870 the population was 32,000; in 1873, 40,000; in 1878, 51,000; in 1880, 66,000; in 1882, 85,000; in 1883, 93,000; in 1884, 113,000; in 1885, 128,000. This shows an increase of just fourfold since 1870. The population of Los Angeles has increased, in the same time, in equal ratio. The census of 1870 gave us 5,728, (which may have been too low by a couple of thousand,) and the census of 1880 gave 11,183. Assuming that we had 7,500 in 1870, and that we have 30,000 now, (and this last assumption, based upon calculations made from school and water censuses, and from the Great Register, is a safe one,) the increase in fifteen years has been fourfold. This will do. At the same rate of progress, Los Angeles will have 120,000 population in the year 1900.

Material for Armies.

Here are some statistics that are not so uninteresting as numerical arrays generally are. Probably we are not aware that we are the greatest military nation on earth. The organized militia force of all the States aggregates 91,290 men, while the unorganized militia numbers 6,580,506 men. The State having the largest is New York, with 11,686 and 502,480 respectively, and Pennsylvania second, with 8380 and 459,532. The other States having over 2000 organized and 200,000 unorganized are: Ohio, 5843 and 440,000; Illinois, 4807 and 440,000; Indiana, 2313 and 369,045; Missouri, 3049 and 310,000; Massachusetts, 4313 and 264,531; Michigan, 2085 and 250,000; New Jersey, 3335 and 223,914; Texas, 223,000, and Iowa, 2555 and 209,228.

Forfeited Railroad Grants.

Mr. Thomas Donaldson, in his careful history of the public domain, estimates the amount given in the way of grants to the public railroads since the first grant of 1850 to the Illinois Central Railroad at 155,504,994.59 acres. The grand total patented up to the close of the fiscal year 1883 is given as 45,647,347.48 acres, or a territory larger than the State of New York, which contains 31,468,800 acres. It is probable that the grants to railroads will reach up to 200,000,000 acres, and that 100,000,000 will be patented in satisfaction of all claims. The amount granted to railroads which have *forfeited* these grants is estimated to be in the neighborhood of 100,000,000, over three times the size of the State of New York.

THE San Francisco Report publishes the following table, showing what became of the money raised in that city for the last Fourth of July celebration, and advising the committee for this year to give some assurances of a better use of the funds before it asks citizens for subscriptions:

Collation at Grand Opera House	$ 300
Refreshments at the Legatts	150
Headquarters	75
Music, eight bands	1344
Horse and buggy, D. McCarthy	55
Norcross & Co., regalia	140
Alta, for publishing oration	80
Robert Cleary, Secretary	300
F. J. Murphy, Ass't	250
John Harvey, Clerk	150

The item of $80 paid the Alta, "for publishing oration," is suggestive. Spread-eagle oratory seems to be below par in San Francisco.

Concerning a Liar.

Justice Field, of the Supreme Court of the United States, suspends his judicial labors long enough to write a letter nailing various lies sent out by the Washington correspondent of the San Francisco Examiner, who telegraphed in May that Judge Field had been "forcing the fight" against General Rosecrans, and named the witnesses who had heard Field assail Rosecrans. The dispatch added that Field had opposed Zach. Montgomery's appointment because he (Montgomery) was a Catholic, and that Field had so stated to the Attorney General. Judge Field flatly denies these charges, and proves the Examiner correspondent (the notorious Charles Whitehead) a liar of peculiarly prolific and picturesque talents. The Judge, without saying so in terms, also conveys the impression that he considers the Examiner's Washington correspondent the equivalent of a horse-thief, or at least a fit person to associate with gentlemen engaged in that industry, for he says: "It is difficult to comprehend the vileness of the nature which could send forth such pure fabrications."

Commenting on Judge Field's letter, the Sacramento Record-Union says:

In the face of this testimony the Examiner should order its Washington falsifier to step down and out. It cannot bolster him up after the exposé without classing itself in the category of liars. The Democratic factions are doing some admirable work for the Republicans just now. If the communistic wing led by Wallace, and the Examiner clique, will keep on a little longer in a course affording ample opportunity to the other Democratic factions of each of the Grand American Dye Houses of HOSATIO MARTEEN No. 9 Also at.

The Busy Borers.

The cicada, or "seventeen-year locust," is making terrible havoc throughout the region of Maryland, Virginia and the District of Columbia, as we learn from the Washington Star. Not only the twigs, but the large branches of deciduous trees, and especially young fruit-trees, have been so effectually killed by the punctures of the egg-layers that whole forests, orchards and nurseries look as if scorched by fire. All effort to prevent this destructive raid of the countless host seems to have been abandoned as practically hopeless, but a correspondent of the Star, who is a florist of many years' experience, points out how young fruit trees and valuable ornamental trees and shrubs can be protected from the locust —simply, cheaply and effectively—by covering them with "mosquito-bar" netting. This netting is cheap, and can be readily adjusted to the tree or shrub to be protected, in a shape to keep the destroyer effectively at bay. The insects have got in a good deal of their destructive work in that region already, but it is hoped that a prompt use of this simple "locust-bar" may save many valuable young fruit trees and ornamental trees and shrubs they have not yet reached.

These boring "beasts" have already appeared in various parts of the Pacific Coast, but not generally in such numbers as represented above. The "locust-bar" expedient may be one worth the attention of our tree-growers.

"Drops From a Poison Fountain."

Zach. Montgomery wrote a very indignant letter to the Oakland Times, demanding to know its authority for the statement made by the Times that Montgomery had enlivened his assault upon the common schools by application of the word "harlot" to the female teachers in the schools. The Times thereupon reproduces from Montgomery's book, "Drops from a Poison Fountain," the "poison fountain" being the common schools, the following extract (edition of 1879, page 13):

So that if these School Directors choose to appoint a libertine or a harlot as the tutor of your daughters, and at the same time refuse their gracious permission for you to send them to a private school of your own device, it is with fines or dungeons that the law proposes to reward you, should you, in obedience to the dictates of right reason and your own conscience, seek to shield them from the contaminating touch of the vile teacher. Is it any wonder that the Government is doomed to perish under the influence of such a system?

The Times then says: "If any implication or meaning can be extracted from that, except that the act of School Directors put subjunctively, is the common practice, and that hence and therefore vice flourishes and virtue perishes, how to extract it is beyond our knowledge or the resources of the English language."

Heroic Grant.

Heroism can only be defined as the supreme effort which raises man above all selfish considerations, in his desire to benefit mankind. Can there be a grander spectacle in our commercial age than that of a man accustomed to the ease of his kennels in the backyard of a fashionable boarding-house—while his mind, too great to be fettered by the ills of the flesh, is engaged in the arrangement and recording of facts without which the weight of authority on many important subjects would be unevenly balanced? Acts of heroism and devotion are common, and it is not necessary to go beyond one's immediate circle of acquaintances to recognize them. Yet there is nothing that appeals with more vigor to our sympathies than a strong man conquered by an incurable disease, while in full possession of his mental power; and devoting his last hours to the accomplishment of an object, upon the completion of which the word "finis" will be indicative of the grandest heroism of the present. It needs no second thought to bare the head and pass on in silence.

Hint Asked for French Protection.

Oakland News.]

Our good friend Leake, of the Dixon Tribune, declares that in his opinion Mr. Henley is a citizen of the United States. So? The proved facts of record are that Mr. Henley applied for Mexican naturalization; he fulfilled all the requirements of Mexican law; he flaunted them in the face of this Government to defy arrest for his utterances and conduct, and under them claimed and received the protection of the French Consul at San Francisco. Now, when was a citizen ever known to claim, in an American port, the protection of a foreign Consul against the Government of the United States? And when was France ever found in an American city, interposing her authority between this Government and its own citizens? Will our friend Leake tell us when?

What in the old version was called "lessing" in the new version is termed "lying or falsehood." The real estate agents have brought this on themselves. —[Pittsburg Chronicle.

COMPTON.

NOTES OF IMPROVEMENT.

Correspondence of the TIMES.]

COMPTON, June 22.—Despite the dull times our town is growing. More improvement is going on just now than for some time past.

Daman & Lyman are putting up a neat building on Lemon street. It is to be occupied as a barber shop and real estate office by the owners, and a part of it will be occupied by Prof Bryant, the harness maker.

Messrs. Gauthhorn & Johnson, from San Francisco, have bought the old harness shop with a lot of 35 feet front, are enlarging the old shop and have already an oven finished, and expect soon to have a bakery and coffee house in running order.

Some of the artesian wells in this vicinity have suddenly diminished in flow, and some have ceased to flow altogether. In all probability the late earthquake shock which was felt here had an effect on the wells.

Mr. R. B. Harris returned on the 17th inst. from a trip to England.

Mr. McCrary, who was burned out lately, has received his insurance.

The Baptist church is inclosed and painted. They have ordered a bell and are now looking for its arrival.

Mr. Kelsea is finishing a neat little cottage on Almond street.

Mrs. Tillie White, of Los Angeles, is here visiting her relatives and many friends. G. A. M.

ORANGE.

PREPARING FOR THE INCURSION OF BUG FIGHTERS.

Correspondence of the TIMES.

ORANGE, June 24.—Birds and bees are taking their share of the apricots.

Mr. T. M. Camfield, for several years one of our young people, but now living at Los Angeles, made his friends in this place a visit a few days since.

Miss Mary Clark, of East Los Angeles, is the guest of Mrs. J. S. Baldwin.

Mr. Will Bovard, one of the University graduates, is visiting his brother, Rev. G. F. Bovard.

Tuesday morning several Burrill Point families started on a camping excursion to Jan Juan Hot Springs. They will be absent several days.

It is hoped that there will be quite a gathering of interested people at the Methodist "camp meeting" of July 11, in this place. We hear that the ladies are thinking of setting lunch tables, so as to provide for the wants of any who may desire refreshments.

The Presbyterian Sunday School picnic on the San Diego cañon picnic ground was quite largely attended and very pleasant. As usual at such places, there were swings, a great variety of games, bountiful dinners, and plenty of music. A.

SANTA ANA.

NOTES OF THE WEEK.

Correspondence of the TIMES.]

SANTA ANA, June 25.—Mr. George Schirm lost one of his twin children with whooping cough.

Miss Lizzie Crane of Live Oak Cañon, was buried on Monday.

The distressing death of Mrs. Hodge's little child has terribly saddened the household of Mr. Hathaway.

Mrs. Foster, mother of Mrs. Eaton, our music teacher, has just returned from an extended visit East.

Mr. C. F. Mansur, who has been in Chicago and other eastern cities seeking a market for oranges, will be home in the course of ten days. He don't like the eastern climate—there is too much variety for him.

All the dryers are busy with apricots. Messrs. Pixley & Arne of Orange are turning out some splendid-looking fruit with the American dryer. The mammoth dryer just put up in Tustin does not seem to settle down to business quite to the satisfaction of the proprietors. Professor Wells has had a dryer of the Holloway patent, built on a small scale, and is well pleased with the result. It dries apricots in about 12 hours.

Mr. John Evans has just commenced the erection of a fine residence for Mr. Robinson at the northeast of town. Mr. R. is a new comer, from Ohio.

Mr. Roper, of this place, has the contract for the woodwork of the Dreyfus winery in Anaheim, and has already begun work.

Many persons have left for a few weeks camping; others have gone on camping tours through the neighboring towns and villages. Professor Wells and wife, Mr. George Hubbard and wife, of Tustin, and some others start on a similar trip to San Diego county. Cupid is quietly at work, and the report is that a forlorn and lonely widower is going to become a happy man again.

The evenings are decidedly cool and agreeable for sleep. NEWTON.

Anecdote of Webster.

[Bangor Commercial.]

Webster was out one day near Marshfield, busily shooting birds. It was a hot afternoon in August. The farmers were getting their salt hay on the marshes. He came, in the course of his rambles, to the Green Harbor river, which he wished to cross. He beckoned to one of the men on the opposite bank to take him over in his boat, which lay moored in sight. The man at once left his work, came over, and paddled Mr. Webster across the stream. He declined the payment offered him, but lingered a moment to question the passenger: "This is Daniel Webster, I believe?" "That is my name," replied the sportsman. "Well, now," said the farmer, "it seems to me, I declare, if I could get five dollars or six dollars a day pleadin' cases up in Boston, I would not be a-wadin' over these marshes, this hot weather, shootin' little birds!"

A Pronounced Success.

New York Sun.]

"Father," inquired a small boy, "what is meant by a 'pronounced success?'"

"A pronounced success," replied the father, "is the first number of a country newspaper, or the first appearance of a fifth-rate actress."

How the Editor Got Real Champagne.

Chicago News.

The following, which the editor of a newspaper in France published the other day, is well worth reproducing: "The wine merchant who sold me last week a bottle of champagne is requested to send me, within twenty-four hours, a bottle of genuine champagne, failing which his name and address will be made public."

It is said that the next day the good editor was inundated with first-class champagne from every wine merchant in the town.

Religion is a necessary, an indispensable element in any great human character. There is no living without it. It is the tie that connects man with his Creator, and holds him to his throne.—Daniel Webster.

San Francisco Market Report.

SAN FRANCISCO, June 24.

FLOUR—There is increased inquiry for shipment, principally for the outgoing China steamer. We quote: Best city extra, $4 85 at 4 95; medium $4 50@4 60; shipping superfine, $3 75@4 00 ₱ bbl.

WHEAT—No change to the better. The demand is limited and trading is slow. We quote: $1 40 to $1 42½ ₱ ctl. will about represent the range of values for the small business in progress.

BARLEY—The market is in soft condition. There are no buyers, and it is hard work for sellers to draw out anything like a reasonable bid. Offerings are somewhat liberal at $1 37½ ₱ ctl for the best kind of feed quality, and some light business was done to-day on this basis, though for sound lots not over $1 37½ ₱ ctl could be obtained. In Brewing descriptions there is no marked change, the range of quotations being reported at $1 37½@1 40 ₱ ctl, the latter an extreme.

CORN—Moderate business. We quote: Large Yellow, $1 37½@1 42½; Small Yellow, $1 35; Large White, $1 36; Small White, nominal at $1 35 ₱ ctl.

COLLEGE ALUMNI.

The A. A. of S. C. Holds Its Fifth Annual Reunion.

The Alumni Association of Southern California held its fifth annual reunion last night, in Opera Hall. About thirty alumni, representing nearly as many different colleges and universities, were present. The retiring president, Professor J. M. Guinn, made a quietly humorous address, stating the objects and nature of "Our Association." Twenty-two new members were voted in. The following officers were then elected for the ensuing year: President, Professor Ira More; First Vice-President, Major George H. Bonebrake; Second Vice-President, Miss Fannie McLain; Recording Secretary, James Blanchard; Corresponding Secretary, Dr. Dorothea Lummis; Treasurer, Henry N. Galloway. A good deal of time was devoted to social chat among the alumni, and then the party adjourned to the W. C. T. U. café, where an elaborate banquet was discussed. In response to the toast "The New Medical College of Southern California," Dr. J. P. Widney spoke of the reasons which had led the founders of the University of Southern California to make it a university instead of a college. They were—and are—building for a new State, which the near future must bring. In eighteen months he expected that six of the college departments would be in full operation.

Henry N. Galloway spoke happily of "College Songs," as the safety-valves of undergraduate enthusiasm, and among the strongest reminders still of college days.

Prof. Fred H. Clarke paid an enthusiastic tribute to the University of California, which he wished to remain the general alma mater of the State.

The poem by Chas. F. Lummis was as follows:

"OUR COMMON COLLEGE."

Children of many college mothers,
And to full many a birthplace scored,
Sisters we meet to-night, and brothers,
Gathering here at a common board.

And if ore ask of the ties that bind us,
Easy enough should the answer be;
Documentary proofs remind us
We are related—in a degree!

* * * * * * *

"Forms of Ants," By Virgil Blata,
Which here applies to each eight-shilling—
The while Policeman Memory nabs
Old Tempus Fugit by the collar.

And well it is that Memory's left,
For in the subsequent days before
Our all of college has been reft
Except our college recollection.

Our college girls—oh, sexpel Sal!—
With unanimity bereft us;
Have married other folks, grown fat,
And somehow seem to run to children.

Our college hopes—well, speech would fail
To tell the plans we used to treasure,
To pick the world up by the tail
And swing it 'round our heads at pleasure.

Our college wisdom—how it has fled
Adown life's stubble-grown, grey acres;
Till ne'er could Sheriff find a shred,
With warrant, posse and subpœna!

* * * * * * *

We jumped from Alma Mater's lap,
Our hats a-cheer with word'n of knowledge;
But knowledge of the world, mayhap,
Has taught us *life's* the real college.

Since Adam was a Freshman in "—
Its course of sport and study squint
At much our college-boy remembers.

No more we pirate signs, indeed,
For duck the Freshmen in the river;
No more we swap the gator, nor feed
The proctor's dog on poisoned liver.

Ah, no! Our pranks are graver grown—
We never think of them as funny—
For fun has stepped from boyhood's throne,
And now, mature, we play for—money.

Some choose to teach the young idee
How best to murder spare learning;
While some in journalism see
Our chance to set the rivers burning.

And some the "healing art" apply—
To "heal" the doctor, it proposes—
Not quite to let the patient die,
Nor get too well to need his doses.

In chucking gospel rocks at foes
Of souls we find employment steady;
While others join the ranks of those
Who've talked poor Justice blind already.

So all along the line. We hold,
With mighty gravity o'erwhirled,
Our brains have grown, oh, very old—
From youth's fool classes gratitated.

But willy-nilly, every day,
Draw on the stern examinations;
And—"pat" or "not prepared"—we say,
Perforce, our daily recitations.

From grim Professor Cash, you see,
Our schemes of "pull, scrat," we borrow;
And study our Philosophy
With pale Professors Pain and Sorrow.

Life's angular Geometry
To Prof. Experience we stutter;
The Algebra of business we
Learn from Professor Bread-and-butter.

By cold Professor Fact we be
In Logic based; and, by reaction,
Translate the Greek of Destiny
With young Professor Hope's direction

And 'twixt the recitations dry
The Chemistry of joy we measure—
Its agents and reagents—by
The help of fat Professor Pleasure.

So, still, we run our studies through;
And when Commencement looms approaching,
We'll take a General Review
Under Professor Age's coaching.

Until we "flunk" in drawing breath;
And on the hushed stage bowing lowly,
Our black cap, "Pro," whose name is Death,
Hands 'round our "sheepskin," gravely, slowly.

Life-graduates, I trust we'll find,
Beyond, true California weather;
And fellowship eternal bind
Old Earth's Alumni close together.

Hon. R. F. Del Valle and B. F. Elliott, who were to have answered toasts, could not be present.

At a late hour the company sang "Auld Lang Syne," and dispersed with pleasant memories.

University Council.

The directory of the University of Southern California have instituted a general council, which is to act as an advisory board for that institution, holding sessions annually during commencement week. The council is composed of the Directors of the University, the Trustees of each endowment fund, the Associate Directors, the Faculty of each college of the University, the officers of the Alumnus association, the Board of Regents or other local managing body of each college, the Visiting Committee appointed by the conference, the presiding elders of the conference, any Bishop or Bishops of the M. E. Church that may be present, and such other persons as said Council shall elect. The Council is given no executive power over the University, but, as stated, its functions are advisory. At each session there is to be an address from some member of the Council previously selected. A preliminary meeting for organization was held on the 23d instant, and arrangements were then made for the first regular assemblage next year, on Wednesday of Commencement week. The Council will meet at 12 m. for the exercises, and, in the evening, there will be a banquet. The officers of the Council are: E. M. Widney, President; S. C. Hubbell, Vice President; Geo. H. Sinsabaugh, Secretary.

Observance of the Sabbath.

The following resolutions were passed by the Los Angeles District Conference of the Southern California Conference, held at the University Church this week:

Resolved—I. That we regard the Sabbath as having been from the creation, and that the obligation to keep it sacred is as wide as the race, and as lasting as time. Its observance was re-commanded on Sinai, and its sacred character and obligation were asserted by our Lord and insisted upon by the Apostle Paul. It lies at the foundation of public divine worship, the continual existence and success of the Christian Church and of all Christian morality, public and private. That the Sabbath is the especial friend of the poor, and the following by them of demagogues, who would overthrow the Sabbath, is the selling of their birthright for less than a mess of pottage. It is with deep regret and sorrow that we see the sordid claims of Mammon and the imperious clamour of sensuality trampling this sacred and precious day in the dust. We regard Sabbath picnics, excursions, railroad travel and business on the Sabbath as subverting the very foundations of good society. And we regard the persons engaged in secreting and carrying on these Sabbath excursions, picnics, etc., and those who patronize them as consciously or unconsciously the enemies of morality, of our institutions of civil peace and national permanence.

II. That we pledge ourselves to preach and try in every way to arouse the conscience of the people, and create public sentiment on this subject.

III. We are determined to make the power of the thousands of our Methodism in this land felt in securing a better tone in the secular press on this subject, and such legislation as is necessary to protect the morals of the people which are so insidiously and successfully attacked by those who seek for their own ends to make the Sabbath a day of sensuality and debauchery.

IV. That to us as a Christian people the Sabbath is a delight—the day of days—a day of spiritual joy and comfort as well as of moral and spiritual life.

A Couple of Weddings.

BALL-PARKHURST.

At the residence of Mr. Putnam, Date street, last Wednesday, the sacred vow was spoken which united Byron Ball and Miss Sarah J. Parkhurst in the bonds of wedlock. No cards were issued, and the happy couple left at once for a two weeks' trip for San Francisco. Mr. Ball is foreman at the Kerckhoff-Cuzner lumber yard, and among the wedding presents was a handsome silver set from this firm. The TIMES acknowledges a package of wedding cake, and, in turn, throws its old shoe after the wedded pair.

Yesterday morning another bachelor plunged into the uncertain sea of matrimony, and another maiden "standing with reluctant feet where brook and river meet," stepped across and linked her fortunes with the man of her choice.

The groom, Mr. W. T. Pridham, has resided here nearly a year, and has won golden opinions in our business community for his energy, integrity and business qualifications generally. The bride, Miss Nettleton, is a late arrival from the environs of our American Athens, and coming from that classic region is necessarily a disciple of culture. She adds to the possession of unusual grace and beauty, a voice of marvellous sweetness, which has been heard on several public occasions since her arrival here to the great gratification of the listeners. The nuptial ceremony, brief, but impressive, was performed by the Rev. Dr. Eli Fay, at the residence of the bride's sister, Mrs. G. F. Conant, and immediately after its conclusion the young couple took the cars for San Francisco, where they spend their honeymoon. D.

Latest from the Cable Road.

On and after this date the Los Angeles Improvement Company will give 33⅓ per cent. discount on the list price of any of their lots to any person that will have a house erected on the lot within six months after the completion of the Second Street Cable Railroad. This offer to hold good to any one purchasing before completion of the road.

To Own.

The local club of dramatic amateurs is doing its best to provide a most enjoyable treat for the Fourth, when the members will present the brilliant comedy of *A Widow Hunt*, both afternoon and evening, at the Opera House. Judging by the number of applications already registered for seats, they promise to be at a premium before the performance takes place.

The Woman's Club.

The last session of the club prior to its adjournment for the summer occurs Saturday afternoon at Pythian Hall. The Literature Committee will present one or two papers, after which Mr. Vickery, of San Francisco, will exhibit a fine portfolio of etchings. A full attendance of members is expected.

BRIEFS.

The Orizaba sails south to-morrow.

The police made no arrests yesterday.

Five Yuma Indians are "doing" the city.

Only one death was reported in the city yesterday.

The Union Band will picnic at the City Gardens Sunday.

The saddles for the brigade staff of General J. R. Mallory have arrived.

A lemonade and fruit stand blooms forth where the police office used to be.

The gathering of the Caledonian Club next Monday evening promises to be a very pleasant affair.

The proposal to change the name of Kohler street to Eighth street is arousing considerable opposition.

Billy Manning, his wife and her son, pugilists all, sailed on the Santa Rosa yesterday for San Francisco.

The new pipe-line, 2anja-D-E, has not yet been accepted, the rip-rapping on the pilos not being completed yet.

A movement is being made looking towards reconstructing the different wards of the city, so as to make them more equal in population.

The photographs of the police force, handsomely set in a big frame, adorn the new police office. The collection is a present from T. S. Hanson.

Mrs. Vernon Willard lectured interestingly in Bryson Hall last night on the Franco-Prussian war, part of whose exciting incidents fell under her observation.

Major Henry C. Dane lectures this evening in the Fort-street M. E. Church, subject, "Constantinople." The lecture is for the benefit of Grace M. E. Church.

DISMISSED,

Simply to Stop Draining the County Pocket.

Two much-be tried criminal cases, in which all hope of conviction has been lost after repeated failures, were dismissed by Judge Chency yesterday. One was the famous Hay rape case, whose fourth full trial had ended the night before in a disagreement of the jury. Of the 48 jurors who have tried the case, 43 have voted for conviction. Of the first jury, two were for acquittal; of the second jury, one voted for acquittal; the third jury convicted, but the verdict was thrown out on affidavit of the clerk that the prisoner had not been arraigned to plead, though the records show that he had been. Of the last jury, two were for acquittal. The expense of this two years of trials, leaving Hay free at last, puts the county full $5,000 out of pocket for incidental expenses, not counting the salaries of judges and court officers.

The other dismissal was of the hardly less notorious J. and Rosa Birnbaum robbery case. This has had two trials, on the first of which a conviction was secured. A new trial was granted, which resulted in a disagreement of the jury, the vote standing eight for conviction and four for acquittal. In both these cases is evident a strong preponderance of belief, on the part of the jury, in the guilt of the accused. In open court, yesterday, Prosecuting Attorney Holton moved that both cases be dismissed, which was done.
